

The GAIA-Movement

Projects:

- in Southern Africa and Asia
- implemented by local NGOs
- to improve environment and
- simultaneously livelihoods

Other Activities:

- develop new projects
- raise funds for these
- produce informational/training material

Funding from:

- royalty payments from clothes recycling enterprises
- donations from organisations
- grants for specific projects

Sustainable Management of Natural Resources

Water

Affordable and locally produced rope pumps

First windrope pump installed in Africa

Water without clearing river vegetation

Vetiver contours to preserve soil nutrients

Soil

Energy

Taking jatropha cuttings for planting

Pressing the first jatropha oil for biofuel

Biodiversity

Jatrophas protecting field against wildlife

Rules at a community preserved area

Building Capacity in Rural Communities
